Department of Civil Engineering
TAMILNADU CEMENTS CORPORATION LIMITED (TANCEM-Mines)
INDUSTRY VISIT REPORT

Tamilnadu Cements Corporation Limited (TANCEM), a wholly owned Government of Tamilnadu undertaking, started business from 1st April 1976 with an authorized share capital of Rs. 18 crores taking over cement plant at Alangulam and setting up another plant at Ariyalur in the year 1979. TANCEM, as its expansion and conversion activities, set up Asbestos Sheet unit at Alangulam during 1981. TANCEM also took over during 1989, a Stoneware pipe plant from TACEL with a view to provide employment to the retrenched employees.

TANCEM has, thus become a multi plants, multi locations and multi products company with an annual turnover of around Rs. 250 crores and the authorised capital as of now is Rs. 37.43 Crores.

The company has its main objective in production of cement and cement based products and primarily cater to the needs of Government departments. Limestone being the main raw material, the company acquired and reserved enough limestone bearing lands in and around Alangulam and Ariyalur which are sufficient to run the cement plants for decades to come. Hence, the role of TANCEM in the development of state is immense.

NATIONAL FOSSIL WOOD PARK, SATTANUR

Geological study shows that more than 120,000,000 years ago, the sea (which lies today about 100 k.m. East of Sathanur) had transgressed as far as 8 to 10 km West of Sathanur. During this period which is Geologically known as the Cretaceous, the sea abounded in a variety of marine animals similar to those found in the present day sea. These animals, after death, sank to the bottom and were buried by sands and clays brought down by the rivers. Along with them some of the trees which flourished on the seacoast or near shore were also buried after transport by flooded streams and were petrified in course of time.

The large trunk of petrified tree, which can be seen here, lies within the Trichirappalli group of rocks of about 100,000,000 years ago. This tree shows the presence of Conifers (The non flowering plants) that dominated the land vegetation prior to the advent of Angiosperms (the flowering plants of the present of day).

The petrified tree trunk at Sathanur measures over 18 meters in length. Similar fossil trees measuring a few meters in length are found along the stream sections near Varagur, Anaipadi, Alundalipur and Saradamangalam. Dr.M.S.Krishnan of the Geological Survey of India first reported this fossil tree in 1940.

Sir/Madam,

Sub: TNSCST - Student Project Scheme - 2022-2023 - approval intimation-grant release-reg.

With respect to the above scheme, the list of projects approved by the State Council is enclosed along with terms and conditions. You are requested to adhere to terms and conditions such as submission of UC and Seminar Paper on Time.

1.	Dr M Kannan, Professor, Department of Civil Engineering, Parisutham Institute of Technology and Science, Nanjikottai, Thanjavur - 613 006	Environmental Impact and Water Quality Assessment in Samuthiram Lake, Thanjavur Using GIS Techniques	S. Abirami, R. Sangavi, T. Srinithie,	ECV-303	The Principal	Rs 7500/-
2.	Dr R Kavitha, Professor, Department of CSE, Parisutham Institute of Technology and Science, Thanjavur -613006	Smart welfare helmets	Aakash.R, Ramkumar.P, Anand Immanuel.A, Anand Immanuel A	CSE-1103	The Principal	Rs 7500/-
3.	Mr.Kannan G, Associate Professor, Department of ECE, Parisutham Institute of Technology and Science, Thanjavur - 613 006	Hand-held device for detection of air pollutants in vehicles using mg811 air co2 sensor module	Ambika.PL, Mahalakshmi.R, Rasi.A.Prakashika, Yogomalini.S.R	EEE-1330	The Principal	Rs 7500/-
4.	Mrs.P.Renuka Devi, Assistant Professor, Department of Mechanical Engineering, Parisutham Institute of Technology and Science, Thanjavur-613 006	Design and fabrication of manual grass cutting machine	S. Kalaimaran, T. Ramkumar, C. Ravisekaran, K. Sivahariharan	EME-0570	The Principal	Rs 7500/-
Total						Rs 30000/-

Herewith enclosed the cheque for the approved grant and disburse the grant to the concerned students through the guides at the earliest

Kindly send the utilisation certificate (format enclosed) and seminar paper (Ref.T&C) on completion of the project.

Thanking you,

Yours faithfully,

READY MIX CONCRETE & SITE VISIT
INDUSTRY VISIT REPORT

Ready-mix concrete (RMC) is concrete that is manufactured in a batch plant, according to each specific job requirement, then delivered to the job site "ready to use".

There are two types with the first being the barrel truck or in-transit mixers. This type of truck delivers concrete in a plastic state to the site.^[2] The second is the volumetric concrete mixer. This delivers the ready mix in a dry state and then mixes the concrete on site. However, other sources divide the material into three types: Transit Mix, Central Mix or Shrink Mix concrete. Ready-mix concrete refers to concrete that is specifically manufactured for customers' construction projects, and supplied to the customer on site as a single product. It is a mixture of Portland or other cements, water and aggregates: sand, gravel, or crushed stone.^[4] All aggregates should be of a washed type material with limited amounts of fines or dirt and clay. An admixture is often added to improve workability of the concrete and/or increase setting time of concrete (using retarders) to factor in the time required for the transit mixer to reach the site.

An apartment building is a building comprising at least two dwelling units. Certain buildings comprise several staircases. In the census, by convention, each stairway is taken as being a building. An apartment is a more commonly used American term for a cluster of rooms that could be over one floor. A flat is a British term for a set of rooms that forms a residence within one floor. **Apartment buildings** are multi-story buildings where three or more residences are contained within one structure. Such a building may be called an apartment. Commercial buildings are buildings where commercial activities take place. Commercial buildings include office buildings, retail space, warehouses and more. This differs somewhat from commercial property, which also includes multi-family buildings like apartment buildings. The average size of buildings constructed before 1960 (26% of the commercial building stock) is 12,000 square feet; buildings constructed between 1960 and 1999 (55%) average 16,300 square feet; and buildings constructed in the 2000s (18%) average 19,000 square feet.

**DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING
(ACADEMIC YEAR 2022-2023)
INDUSTRIAL VISIT REPORT**

MAY 20, 2023

INTRODUCTION

Department of Electrical And Electronics Engineering organized an Industrial visit at IROID Technologies Pvt Ltd, Kerala Central Marine Fisheries Research Institute, Kerala State Museum Thrissur on 13th and 14th May, 2023. This document contains a detailed report of the industrial visit.

Faculty Members:

1. Mr. K. Santhosh Kumar, AP/EEE
2. Mr. S. Vignesh, AP/Mech
3. Mrs.S. Fathima Bibi, AP/EEE
4. Mrs.Ramya AP/CSE

PURPOSE OF VISIT

1. Interaction between students and industry personnel.
2. To make students aware about actual industry working and the industrial environment.
3. To develop awareness among students regarding sheet metal manufacturing processes.
4. To prepare students for selection of career in different departments of industry.

DETAILED DESCRIPTIONS

IROID TECHNOLOGIES PVT LTD

They offer a spectrum of solution including ERP development, CRM, mobile application, web designing etc. The session helped the students to learn a lot about professional growth. We had very interactive session regarding work culture.

KERALA CENTRAL MARINE FISHERIES RESEARCH INSTITUTE

Established by the government of India under the minister of agriculture in 1974. An achievement of ICAR-CMFRI is the development of sampling method for estimation of marine fish. It is focused on gathering information of the marine fishery resource of India.

KERALA STATE MUSEUM THRISSUR

It stated functioning in 1885 located at Thrissur. It consisted of variety of fauna like porcupine, sambar deer's, crocodile etc. museum, multi- purpose museum, traditional architecture.

CONCLUSION

The experience of this visit was really fantastic and unforgettable. The students learnt different phases of project planning and executions at professional level. From this industrial visit, students understood what the culture in the industry is and how to stand in the corporate world in the era of competition?
